

C 12M

EXCELLENCE IN MODULAR PERFORMANCE

The latest technology incorporated in our sophisticated and modular stage/front of house monitor line-up, featuring multi-functional, beautiful design and best audio performance available at compact footprint. In addition, the user-friendly design of any KS-AUDIO monitor fulfills true configuration as front of house sound reinforcement system in general.

The maximum SPL/size ratio and most natural sound reproduction achieved in its class due to excellence in sophisticated 12"/1,4" co-axial loudspeaker design.T

C 12M

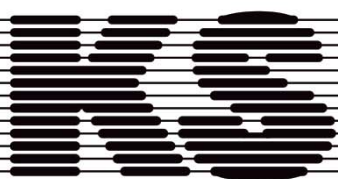

The multiple reinforced and braced speaker cabinet construction is, like all KS-AUDIO systems, built from birch plywood treated with heavy-duty PU-coating. All RAL-colors available as a standard.

Due to ergonomically built-in handles, single-or two-handed lifting of monitor is easily possible.

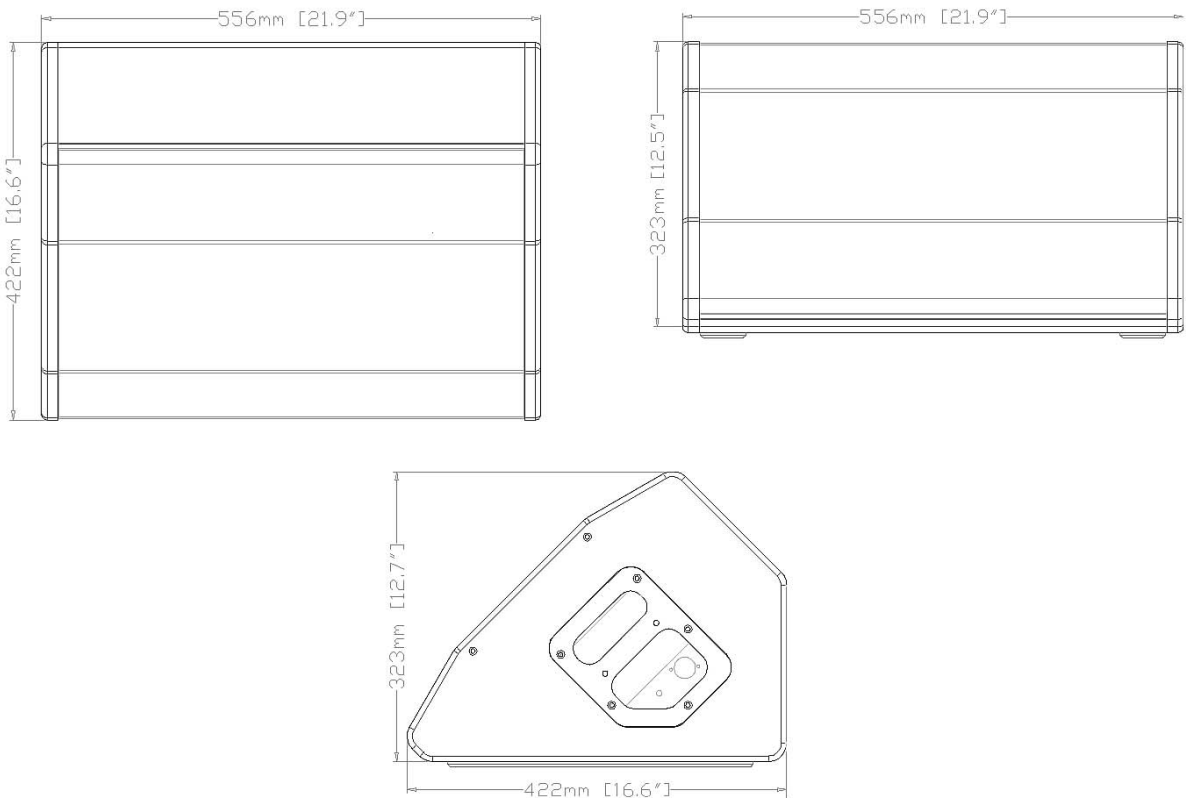

A perforated steel front grille plus foam for heavy-duty protection of built-in transducers, 36mm top hat, four metrical M6 threads for u-bracket, twin NL4 connection plates for wiring thru and optionally lots of additional gear for further flexibility in use are available at your local KS-AUDIO dealership.

The integration of handle, connection plate, top hat and active/passive switch into a single unit is featuring true innovation with an one-of-a-kind mechanical device in modern loudspeaker design.

Please note, that all technical specifications of any KS-AUDIO product, mentioned below, are subject of using recommended KS-AUDIO amplification and KS-AUDIO digital processing in general.

dimensions

specifications

Specifications	C12 M
frequency response + / -3dB	60 - 19,000Hz
output SPL	134dB peak
dispersion angle (horizontal x vertical in degrees)	60°/ 60°
system controller type	KS AUDIO amp CA 4D or TA 4D with D MOD or F MOD
drivers	12" cone + 1.4" ND coaxial hornloaded
power in Wrms	500W + 100W at 8 ohms
amplification / x-over	full range / biamp switchable
input connectors	speakon NL4
output connectors	speakon NL4
cabinet	birch plywood
grill	stainless steel honeycomb 6 sided + acoustic foam
finish	charcoal black polyurethane
dimensions (height x width x depth)	330 x 600 x 420 mm 13" x 23.6" x 16.5"
weight without options)	21 kg 46.2 lbs
features	35mm pole mount, 4 x M6 mounting points
options	heavy duty padded black cover
